

To Optimize Your Device

The meters on devices or printers indicate when preventative maintenance is needed. Regular maintenance of a print device will help to keep the device running at its optimal performance.

If meter reading is not automatically retrieved by EP-BB, customers should report meter on or before 25th of each month.

Meter Reading Steps

Find your devices or printers as below and follow the meter reading steps to report meter.

ApeosPort / DocuCentre-VII C7773/C6673/C5573/C4473/C3373/C3372/C2273

Top Quality Service, from a Distance

Electronic Partnership Broadband (EP-BB)

EP-BB enabling Smart Remote Service ensures your device functions at optimum performance levels and maintains device health while keeping your business running. The service proactively sends alerts to preempt performance issues so that it can be re-mediated before they cause operational disruptions.

Enjoy the Benefits at Zero Cost

The EP-BB enabling Smart Remote Service has proactive and predictive capabilities that allows you to focus on your business needs, while we take care of the device's maintenance and performance issues.

Increased productivity

Smart and proactive alerts mean less administrative time wasted on manual checking and consumable stock management.

Maximum performance

Automatic health checks ensure your device performs at its optimum functionality at all times.

Proactive service

Fault alerts and diagnostic data are automatically sent to Customer Support specialists who will call you to provide solutions promptly.

Maximised uptime

Accelerated resolution response and timely consumable replenishment to ensure smooth business operations.

Smart reports

Green Reports or Comprehensive Monthly Reports* showing statistics on detailed device usage and environmental impact.

Automatic Meter Capture

Accurate meter readings are retrieved automatically, which eliminates productive time lost in manual checking and subsequent report submission.

One Secure Platform, Three Smart Pillars

EP-BB enabling Smart Remote Service relies on three pillars for better device health.

CONNECT

Secured connectivity platform

Seamless one way communication between your device and our data centre, to analyse diagnostic data and solve performance issues.

MAINTAIN

Proactive tools

Automatic fault alerts, billing meter reading, and firmware updates.

Consumable replenishment**

Proactive consumables alerts is prompted when consumables are running low.

Diagnostic data

Device automatically sent to Customer Support helps to troubleshoot malfunctions and analyse device health.

Predictive features*

Artificial Intelligence and Trace Quality Management System use advanced analytics and hundreds of sensors predict performance issues to manage them before they occur.

REPORT

Green Reporting

Monitor print/scan/fax usage, service history information, energy usage, and environmental impacts of your device.

Comprehensive Monthly Reports*

Get a better understanding with detailed summaries of device health status, service activity, consumable usage, and other relevant high-level information.

* Available on selected models only. Fixed Internet connection, proxy server, firewall, and other system requirements to be provided by customers.

** Please note that your toner status will remain low while the system processes your consumable order.

Report Meter Reading Methods

Customer can choose one of the 4 ways as below to report meter readings:

- 1 Call our hotline
- 2 Fill in the e-form on our website
- 3 Report through Live Chat on our website
- 4 Fill in the Meter Reading Form and send to us by email/ mail/ fax:

Fill the e-form here:
