

SYNTHETIC MEDIA TO MEET YOUR NEEDS
FOR ANTI MICROBIAL, WATERPROOF AND
DURABLE PRINTS

Synthetic Media

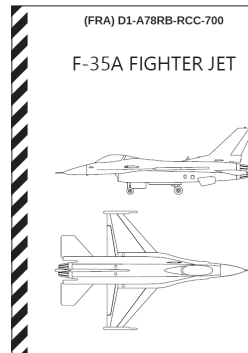

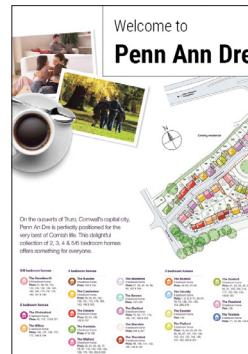

Synthetic Media Matt White Sheets (GAAA7763 - GAAA7788)

Durable synthetic paper ready to use straight from the output tray, yet tough enough to survive extreme outdoor conditions, wet surroundings, and frequent handling. Waterproof, tearproof, grease and chemicals resistant, with no need for lamination.

- Matt white opaque film suitable for full colour duplex printing
- Waterproof, tearproof, greaseproof, alcohol resistant, wipe clean, can be holepunched
- Controlled electrical charge components enable vibrant imaging and minimise static-related feed problems
- No need to laminate

CAUTION:

Synthetic papers with the thickness of 270µ and 350µ can only be fed on a limited number of high-spec printers. Take advice.

Synthetic Media

Matt White HWLD Sheets

(GAAA7789 - GAAA7792)

- Suitable for mid- to low-speed colour copiers and desktop printers
- Matt white opaque
- Suitable for full colour duplex printing
- Waterproof, tearproof, greaseproof, wipe clean, can be holepunched
- Ultra-smooth for easy feeding on desktop machines
- No need to laminate

Synthetic Media Matt White Pre-Converted Sheets

(GAAA7793 - GAAA7801)

With the Pre-Converted polyester materials, the opportunities are limited only by your imagination. They allow you to go straight from blank sheets to a finished product in a matter of seconds, with no post-processing required – create menus, parking passes, door hangers, bookmarks, luggage tags, ID cards and many other products in a flash! Some of the benefits include:

- Matt white opaque film suitable for full colour duplex printing
- Waterproof, tearproof, greaseproof, alcohol resistant, wipe clean
- Controlled electrical charge components enable vibrant imaging and minimise static-related feed problems
- No need to laminate

Synthetic Media

Synthetic Media Sheets Specialty

(GAAA7802 - GAAA7811)

Vivid Black

- Ideal for high impact outdoor signage, safety notices and eye-catching marketing pieces
- Waterproof, tearproof, greaseproof, wipe clean, can be holepunched
- High opacity

Heavy Clear

- Double-sided, glass clear, coated polyester with high anti-static properties
- Ideal for folder covers and tear-resistant overlays

Light Frost

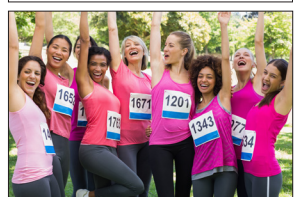

- Perfect for frosted binder covers & presentation front covers
- Double-sided, diffusion coated polyester with high anti-static properties
- Smooth matt surface giving a strong image and excellent ink adhesion
- No need to laminate

Heavy Frost/Backlit

- Great for backlit applications such as vending machines & menu boards
- Double-sided, diffusion coated polyester with high anti-static properties
- Waterproof, tearproof, greaseproof, wipe clean, can be holepunched
- Optimum balance between translucency and whiteness

Non-Woven Textile

- Customisable for a wide range of purposes for a different look and finish
- White opaque non-woven fabric
- Lightweight & foldable
- Waterproof
- Can be sewn to guarantee high breaking strength

Synthetic Media

Synthetic Self-Adhesive Media

(GAAA7812 - GAAA7832)

Synthetic Matt White Self-Adhesive Media with Filmic Release

(GAAA7812 - GAAA7816)

Toner printable matt white polyester with permanent acrylic adhesive with an excellent toner bonding gives scuff resistant finish. Filmic release liner for optimum dimensional stability, ideal for sheeting. Bright white matt finish. Fully waterproof, tear, scuff, and solvent resistant face film stays flat. No need to overlaminate! Perfect for waterproof white labels, signage, safety labels, plant labels, and any other applications where durability is a must.

Synthetic Matt White Self-Adhesive Media with Paper Release

(GAAA7817 - GAAA7819)

Toner printable matt white polyester with permanent acrylic adhesive with an excellent toner bonding gives scuff resistant finish. Heavyweight stabilised paper liner, suitable for long print runs from production to low to medium speed printers, cost effective. Bright white matt finish. Fully waterproof, tear, scuff, and solvent resistant face film stays flat. No need to overlaminate! Perfect for waterproof white labels, signage, safety labels, plant labels, and any other applications where durability is a must.

Synthetic Matt White Marine Grade Self-Adhesive Media with Paper Release

(GAAA7820 - GAAA7822)

Toner printable matt white polyester with permanent marine grade acrylic adhesive with an excellent toner bonding gives scuff resistant finish. Bright white matt finish. Fully waterproof, tear, scuff, and solvent resistant face film stays flat. No need to overlaminate! Approved to BS5609 Pt. 2 & 3. Ideal for water-resistant applications such as chemical drum and container labelling, outdoor signage, and labels, etc. Layflat heavyweight kraft paper liner ideal for sheeting. Perfect for marine approved drum labels, waterproof white labels, signage, safety labels, plant labels, and any other applications where durability is a must.

Synthetic Media

Synthetic Gloss White Self-Adhesive Media with Filmic Release (GAAA7823 - GAAA7824)

Toner printable gloss white polyester with hi-tack permanent adhesive. Filmic release liner for optimum dimensional stability, ideal for sheeting. Bright white gloss finish. Waterproof, tear, scuff, and detergent resistant face film stays flat. No need to overlaminate! Perfect for waterproof white labels, signage, safety labels, plant labels, and any other applications where durability is a must.

Synthetic Gloss White Self-Adhesive Media with Paper Release (GAAA7825)

Toner printable gloss white polyester with hi-tack permanent adhesive. Heavyweight stabilised paper liner, suitable for long print runs from production to low to medium speed printers. Bright white gloss finish. Waterproof, tear, scuff, and detergent resistant face film stays flat. No need to overlaminate! Perfect for waterproof white labels, signage, safety labels, plant labels, and any other applications where durability is a must.

Synthetic Glass Clear Self-Adhesive Media with Filmic Release (GAAA7826 - GAAA7830)

Toner printable glass clear polyester face film with hi-tack permanent adhesive. Polyester film release polishes adhesive to give extra-clear 'no label look' finish together with excellent dimensional stability. Waterproof, tear, scuff, and detergent resistant face film stays flat. Perfect for clear waterproof labels, signage, safety labels, short run/ personalised labels, clear window stickers.

Synthetic Matt White Ultra Removable Self-Adhesive Media with Paper Release (GAAA7831 - GAAA7832)

Toner printable matt white polyester with ultra removable acrylic adhesive with an excellent toner bonding gives scuff resistant finish. Low adhesion build + clean removability from smooth surfaces. Heavyweight stabilised paper liner, suitable for long print runs and larger sheet sizes for low to medium-speed printers. Bright white matt finish. Fully waterproof, tear, scuff, and solvent resistant face film stays flat. No need to overlaminate! Perfect for window stickers, temporary car stickers, retail cooler signage, parking tags.

Synthetic Media

Synthetic Media Dry-Peel Sheets

(GAAA7802 - GAAA7811)

Gloss White Wristbands

- Print and peel with no adhesive residue
- Waterproof, tearproof and greaseproof
- Ideal for sports events, music festivals, exhibitions, holiday resorts & hotels
- No need to laminate

Matt White Dry-Peel ID Cards

- Single-sided ID cards
- Can be signed and written on with ballpoint pen
- Print and peel with no adhesive residue

Matt White Butterfly ID Cards

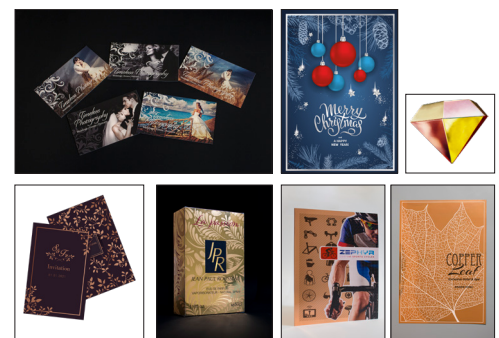

- Duplex effect printing (printed simplex)
- Folds and sticks together with built-in permanent adhesive
- Waterproof, tearproof and greaseproof
- No need to laminate

MetaliK Board

(GAAA7836 - GAAA7838)

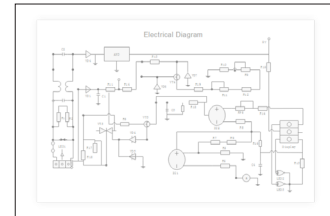

Available in Silver, Copper and Gold finish, MetaliK Board is a highly reflective, metallic finish board developed for dry toner print processes on medium to high volume production machines. It is manufactured to a high standard and optimised for toner adhesion and static control. MetaliK delivers maximum colour punch and a real WOW factor to a wide range of revenue boosting applications. Ideal for luxury packaging, personalised promotions, invitations, greeting cards, business cards, direct mail, point of sale, books and brochures covers.

Synthetic Media

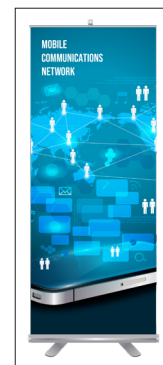

Design Jet Double Matt Film (GEAA1459)

Design Jet Double Matt Film is perfect for architectural and engineering projects, allowing for a durable, fast drying and smudge resistant drafting. Suitable for CAD inkjet with pigment ink, with a matt drawing surface on the reverse side.

KernowJet Latex & Solvent Ultimate 180 (GEAA1460)

The Ultimate range remains the benchmark product for pop-up and roll-up display films. The unique coating absorbs inks and then hardens, effectively becoming a self-laminating product. This enables flatter displays without lamination-induced curl.

Colour Jet Paper Super Resolution 200CSR (GEAA1461 - GEAA1464)

High Resolution Paper is a heavyweight, high quality matt photo paper for instant drying images. The super resolution coating is designed for up to 1440dpi and high ink loads. It will perform well with both hot and cold lamination. The photo paper with an expensive heavy weight feel for high quality work is ideal for both large and small format – from desktop design to posters and exhibition panels.

Dry Toner Anti-Slip Adhesive Flooring Graphic (GAAA7839 - GAAA7840)

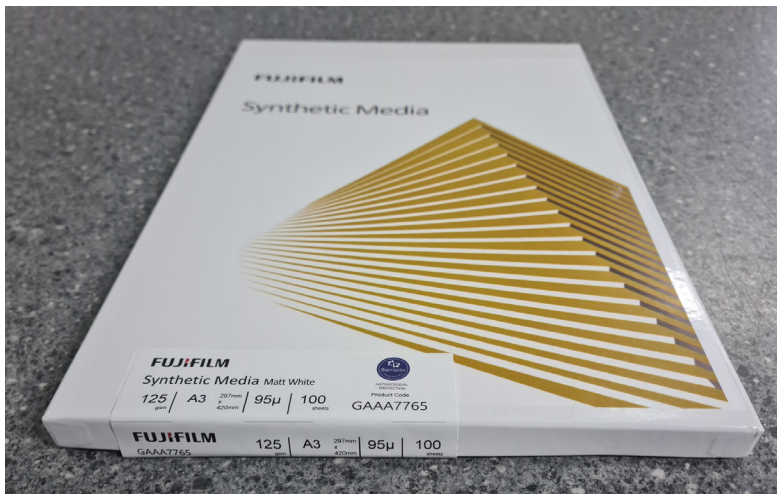

A unique Anti-Slip R10 rated Dry Toner printable floor graphic solution for indoor environments, including retail outlets, supermarkets, airports, and event & conference centres. Certified R10 for slip resistance with no lamination needed.

Synthetic Media

Features of Fujifilm **Antimicrobial** products:

- › pro-actively prevents/disrupts the growth of bacteria on treated surfaces
- › is proven to inhibit the growth of most types of harmful bacteria
- › reduces opportunities for bacterial / fungal growth
- › reduces the load of infection-causing bacteria on surfaces
- › inhibits the growth of common food-poisoning bacteria on treated surfaces
- › makes your product more hygienic
- › complements cleaning regimes
- › provides a second line of defence against harmful bacteria
- › works 24/7 to protect product surfaces
- › is completely safe to use in food and water applications
- › is independently tested to ISO 22196
- › contains inbuilt antimicrobial protection effective for the lifetime of the product
