Do you know that office paper ream wrappers typically have a plastic coating to protect the product inside, which makes the wrapper difficult to recycle?

Fujifilm Excellence eco-friendly ream wrapper is made from renewable and responsibly sourced wood fibres; it protects your copy paper without the need for plastic film. Without the plastic coating, the paper wrap can be recycled in your regular paper recycling stream, reducing waste.

- High strength and stiffness protect your printer and copy paper in even humid conditions
- Made from renewable, sustainably sourced wood fibres
- Biodegradable and industrially compostable in accordance with EN 13432

No plastic film, easy to recycle

Excellent print performance and colour reproduction

Less production steps, smaller overall carbon footprint
