

PRINT MANAGEMENT

ONE SUITE TO TAKE FULL CONTROL OF YOUR PRINT ENVIRONMENT

Managing a distributed, high-volume print environment can be a challenge. Whether your organization is expanding, consolidating, or optimizing costs, YSoft SAFEQ 6 Print Management Suite delivers the visibility, security, and automation you need to support in-office and at-home workers.

With centralized print management and flexible deployment options (on-prem, private cloud, or hybrid), SAFEQ allows you to seamlessly scale as your environment changes while keeping print costs under control. Your success is backed by Y Soft support, ensuring your organization can eliminate inefficiencies and keep your print services agile, cost-effective, and future-ready.

KEY BENEFITS

Cost Optimization & Sustainability

Accurately forecast costs and reduce unnecessary printing with quotas, advanced reporting, and rules-based printing.

Increase Productivity

Simplify printing and scanning with a user-friendly experience for desktop and mobile users.

Best-in-Class Support

Protect your investment and environment with an expert-led support plan that reduces downtime, increases performance, and minimizes risk.

Improve Security & Data Privacy

Ensure complete print services security with controlled user access, secure document release, and full audit trails.

Support Remote & Hybrid Work

Take advantage of secure, scalable, and anywhere-accessible print and scan workflows.

Are You Looking to Simplify IT Management?

Many organizations are now moving to YSoft SAFEQ Cloud, a fully hosted print management solution that eliminates the need for on-premises servers and IT maintenance. With our Cloud Transition License Program, it's easier than ever to migrate—at your pace, your way.

PRINT MANAGEMENT SUITE: KEY FEATURES

YSoft SAFEQ 6 is integrated within the user interface of the world's most popular MFDs. These key features deliver on our promise of increasing document security, reducing print service costs, and providing you visibility and control into your organization's print services activity. These features are intuitive and user friendly for end users and print administrators alike.

FEATURE	BENEFITS AT-A-GLANCE
Authentication	• Protects against unauthorized access to the MFD. • Documents remain secure until the user authenticates via card/mobile reader, PIN, or username/password. • Print jobs no longer needed are never printed. • Easily assign print, copy and scan rights to users or groups of users. Supports guest printing.
Print Roaming™ Client Based Print Roaming (CBPR)	• Secure printing from any printer in the SAFEQ system without additional print drivers. • Scalable from one office to offices across multiple continents. • Optionally, with CBPR, reduce the number of print servers. required by handling job processing on the user's workstation.
Rules-Based Engine	• Apply from a library of common cost-reducing rules. • Create your own rules to enforce governance or sustainability by creating triggers. • User notifications sent when print rules have been applied. • Allocate print jobs by billing codes and sub billing codes at the MFD; assign billing codes to certain users. • Apply watermarks for document security upon defined triggers.
Reporting	• Pre-defined or custom reports provide fact-based data and usage audits. Infinite custom reports can be created. • Dynamic reporting through exports to PowerBI or Tableau. • Generated on demand or scheduled and automatically routed. • Includes pre-defined templates for web reports and sustainability reports.
Mobile Print	• Native iOS and Android smartphone printing & wireless printing. • Optional printing by file upload to email or web page. • Optional mobile app for authentication.
Credit & Billing	• Set and manage print quotas. • Create pay-to-print services. • Includes a desktop administration application.
Automated Scan Workflows	• Automates paper-based tasks with a one-click scan workflow which simplifies scan capture, processing and delivery to predefined locations. • Includes connectors to many cloud-based document repositories.
Extension Store	• Customizes your use of SAFEQ with over 50 options. • Adds support for home/remote workers.

HOW IT WORKS

1

User submits print job as normal.

2

User authenticates at any printer for access to print/copy/ scan; identity is verified against the corporate directory.

3

User chooses desired print job or all print jobs. User can mark a job as a favorite or delete print jobs submitted but no longer needed.¹

4

Digital documents are delivered to predefined destinations automatically.

5

Reporting captures all authentication and print, copy, scan and fax activity.

THE Y SOFT DIFFERENCE

Hardware

Y Soft is unique as a print management provider because we offer a comprehensive solution that enhances the user experience. Y Soft designs, manufactures, and quality tests all companion hardware, so you are assured that software and hardware work well together and are supported by a single supplier.

Contactless Readers

The YSoft MFX Readers are innovative authentication solutions designed to enhance security and streamline user access in any workplace environment. With plug-and-play functionality, multi-card compatibility, and seamless integration with print management, the MFX Card Reader gives you reliable and efficient authentication.

External Terminals

For printers and MFDs that do not support embedded software, Y Soft manufactures external terminals. These external terminals can also be used instead of embedded for a consistent user experience if you have a mixed brand print fleet.

Global Support

Renowned for our excellent, global support, YSoft SAFEQ 6 offers a choice of direct support – where Y Soft personnel works with you on any issue, or indirect support – where your printer provider, a Y Soft certified reseller, provides first or second level support. Whether you choose direct or indirect support, we offer multiple packages to meet your needs.
